

## **Key Completed User Stories and Acceptance Criteria:**

**User Story 1.1:** As a user, I want to be able to log in to my account so that I can make my posts from my account.

**Acceptance Criteria 1.1:** I am able to use an email and password, that has been registered, to login past the login page. The login page displays errors, if the user inputs bad information.

**User Story 1.2 -** As a user, I want to create a new account, so if I do not have an account, I can make one.

**Acceptance Criteria 1.2:** We are able to set up an account with an email, username, and password. After creating an account, we should be able to log in using the credentials used for the signup.

**User Story 1.3 -** As a user, I want there to be a home page, so that I can navigate around the website easily

**Acceptance Criteria 1.3:** We have a home page with a layout for buttons that we can connect to later User-Stories later on. Should be styled correctly and have consistent formatting.

**User Story 2.1 -** As a User, I want to be able to choose an image of my choice and write a description for the image, so that I can keep track of my past activities with my hobby.

**Acceptance Criteria 2.1:** Have a page that allows users to choose an image of their choice and also allows the user to choose to add a description. If they do not want a description, one will not be provided.

**User Story 2.2 -** As a user, I want other users to not be able to post from my account, so I have control over my own posts.

**Acceptance Criteria 2.2:** Having a form of authentication, when the user logs into their account, and makes a post. The post authorid in graphql is the same as the logged in persons id.

**User Story 2.3 -** As a user, I want to be able to open up this website on my phone, so I can post images if I'm on my mobile device.

**Acceptance Criteria 2.3:** Pulling up the website on a mobile device, say an iPhone, the UI does not break, and it functions the same way as if it were on a PC.

**User Story 3.1** - As a user, I want to be able to easily traverse the website, so I don't have to learn some new UI.

**Acceptance Criteria 3.1:** When giving the website to someone who has never seen it, they can easily create an account, login, create a post and view theirs and others posts.

**User Story 3.2** - As a user, I want the option to categorize my images by different hobby-related tags, so that I can find other posts with similar tags

**Acceptance Criteria 3.2:** When the user goes to create a post, they are able to select a tag for their post. When the post is displayed on the home screen, the tags can also be seen.

**User Story 3.3** - As a user, I want to be able to sign out of my account, so no one who uses my device can post on my account.

**Acceptance Criteria 3.3:** There is a sign out button on the home page, when clicked, it logs out the current logged in user and takes back to the login page.

**User Story 4.1:** As a user, I want my images/descriptions to appear on the homepage of the website so that I can see my own posts and other people's posts.

**Acceptance Criteria 4.1:** When you go to the homepage of the website, the posts from the database are sent to the homepage, such that you can see them. In reverse chronological order, newest at the top, oldest at the bottom.

**User Story 4.2** - As a user, I want the pages to be secure, so that people who do not have accounts, can't freely see other people's posts.

**Acceptance Criteria 4.2:** When you do not login to an account, but try to access one of the pages, it will not let you. But, when you login to a real account, you can view the pages.

#### **Known Problems:**

- Not really a bug, but mobile support is limited
  - You are able to view the website on a mobile device, like a phone, but it is limited to specific device sizes.
  - Able to use the website as intended.

#### **Product Backlog:**

### **Didn't Complete**

**User Story 4.3** - As a user, I want to be able to search through other posts, so that I can try and find specific hobbies and their images.

**Acceptance Criteria 4.3:** Utilizing the search bar on the home screen, when searching key words, posts that contain that key word will appear on the home screen only. Those that do not have the key word that was searched, will not appear.

**User Story:** As a user, I want there to be an option to see only my posts, so that I do not have to scroll through other posts to view my own. **(See own Posts Easily)**

**User Story:** As a user, I want to be able to search through other posts, so that I can try and find specific hobbies and their images. **(Functioning Search Bar Implementation)**

**User Story:** As a user, I want to be able to reset my password, so if I forget my password I can change it and login again. **(Forgot Password)**

**User Story:** As a user, I want to be able to login through my other social media accounts, so that they can all be connected to this website. **(Login Through Other Websites)**

**User Story:** As a user, I want to be able to delete posts that I have made, so if I mess up when I upload an image with a description. **(Remove Previous Posts)**

**User Story:** As a user, I want to be able to have a title on my post, to have more customization to my posts. **(Posts to have titles to them)**

**User Story:** As a user, I want to be able to post a video, so that I can have a video of me doing my hobby. **(Video Upload)**
