

Sprint 2 Plan
Hobby Tracker
Hobby-Trackers
Sprint Completion Date: 5/09/2023
Revision: 1.0, 4/26/2023

Goal: Goal for this sprint is to allow users to be able to select personal images and send them to the data base. And, incorporate authentication to our login page.

Task Listing:

User Story 1 - As a User, I want to be able to choose an image of my choice and write a description for the image, so that I can keep track of my past activities with my hobby.

Task 1: Create UI for image posting/description on a separate page [10]

Task 2: Route to this page when clicking the post button [5]

Task 3: Create a post model with the necessary fields [15]

Task 4: Send the data to the database using mutation post [10]

Total Hours for User Story 1: 40

User Story 2: As a user, I want other users to not be able to post from my account, so I have control over my own posts.

Task 1: Utilize User context so that we can pull proper email/author id from logged in user [15]

Task 2: When creating mutation for post, use what we pulled before to create the post [5]

Task 3: Web tokens when user logs in [15]

Total Hours for User Story 1: 35

User Story 3: As a user, I want to be able to open up this website on my phone, so I can post images if I'm on my mobile device.

Task 1: Make sure the styling of pages takes into account different screen sizes [10]

Task 2: Go through pages to see that when you change screen size, the UI does not break. [10]

Task 3: Maintain similar layouts if possible. [5]

Total Hours for User Story 1: 25

Team Roles:

Lawrence: PO/Developer

Tad: Developer

Leo: Scrum Master/Developer

Mona: Developer
